

PI

Chapter Header bar

1.Header bar

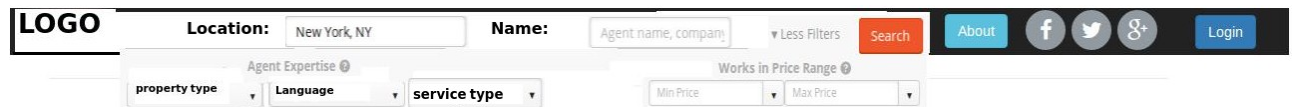

Header bar containing a logo, location input (New York, NY), name input (Agent name, company), a search button, and social media links (About, Facebook, Twitter, Google+).

the round icons are links to social handlers

Search by : Location , Agent-name/comapny

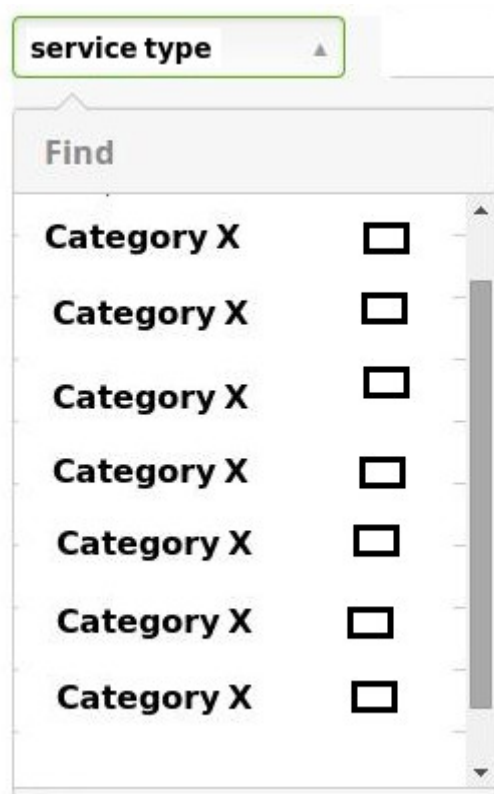

2.Header bar with filters

Header bar with filters including property type, language, service type, and price range (Min Price, Max Price).

Property-type : is the clients property type, is it office,resedential home etc

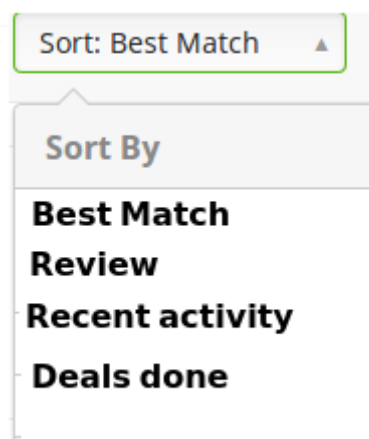

3. Agent selector

Agent selector dropdown showing service type and a list of categories (Category X) with checkboxes.

Category X are all the services offered by agent

4. Sort by

Sort by dropdown showing options: Best Match, Review, Recent activity, and Deals done.

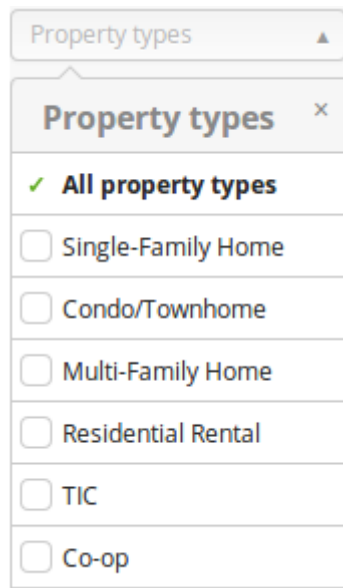

Best-match: Is by default, kept it for now, might event remove it as i think its really not required to be specified

Review: sort by reviews , with top results having most rated reviews

Recent-activity: Agent recently have many deals done, in the recent time window. Got to see the performance impact on servers

Deals done:total deals done so far

5. property type

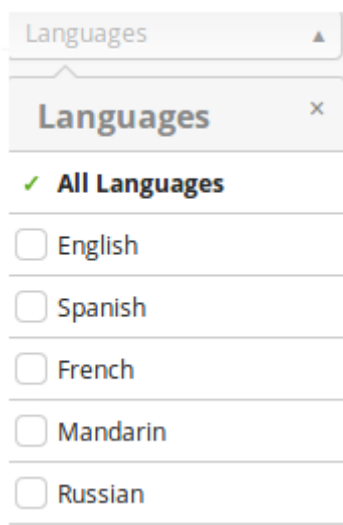

A screenshot of a web application's filter menu for 'Property types'. The menu is open, showing a list of options. The first option, 'All property types', is selected and marked with a green checkmark. Below it are six other options, each with an unchecked checkbox: 'Single-Family Home', 'Condo/Townhome', 'Multi-Family Home', 'Residential Rental', 'TIC', and 'Co-op'. The menu has a title bar with the text 'Property types' and a close button (X).

Property types	
<input checked="" type="checkbox"/>	All property types
<input type="checkbox"/>	Single-Family Home
<input type="checkbox"/>	Condo/Townhome
<input type="checkbox"/>	Multi-Family Home
<input type="checkbox"/>	Residential Rental
<input type="checkbox"/>	TIC
<input type="checkbox"/>	Co-op

Need a list here too, just stole this from a website

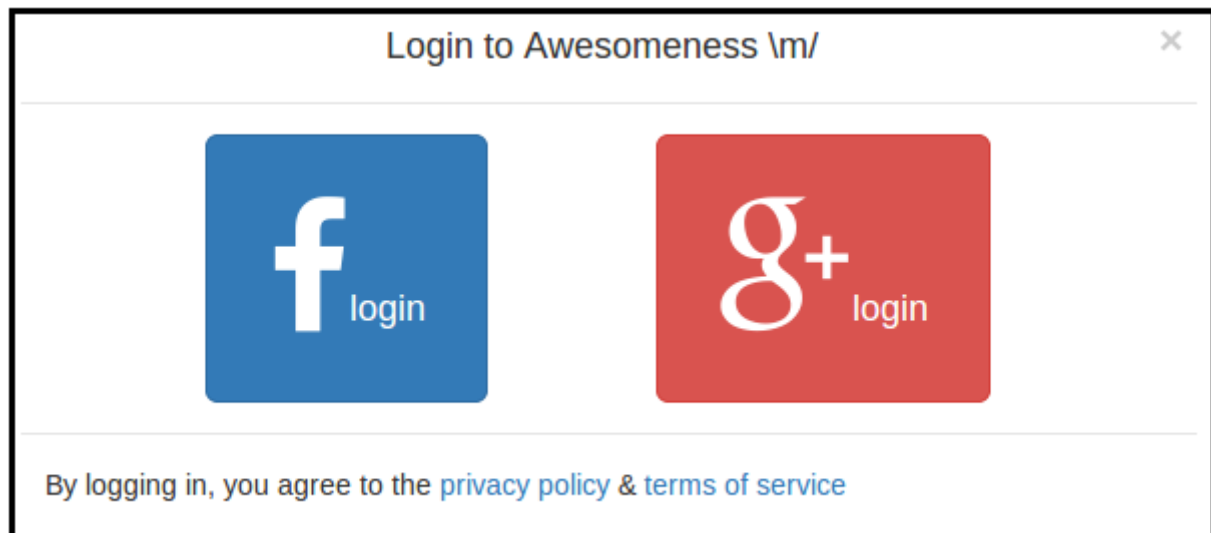

6.Languages

A screenshot of a web application's filter menu for 'Languages'. The menu is open, showing a list of options. The first option, 'All Languages', is selected and marked with a green checkmark. Below it are five other options, each with an unchecked checkbox: 'English', 'Spanish', 'French', 'Mandarin', and 'Russian'. The menu has a title bar with the text 'Languages' and a close button (X).

Languages	
<input checked="" type="checkbox"/>	All Languages
<input type="checkbox"/>	English
<input type="checkbox"/>	Spanish
<input type="checkbox"/>	French
<input type="checkbox"/>	Mandarin
<input type="checkbox"/>	Russian

7. Login Modal

This popsup when someone clicks the login button.
The background is faded while this is in focus

8. "About" is an alias for "how it works?" , it also opens up a similar modal like above

Chapter :Footer

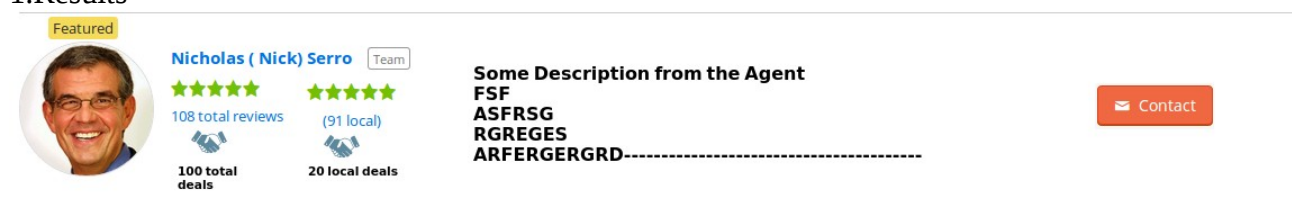

1.

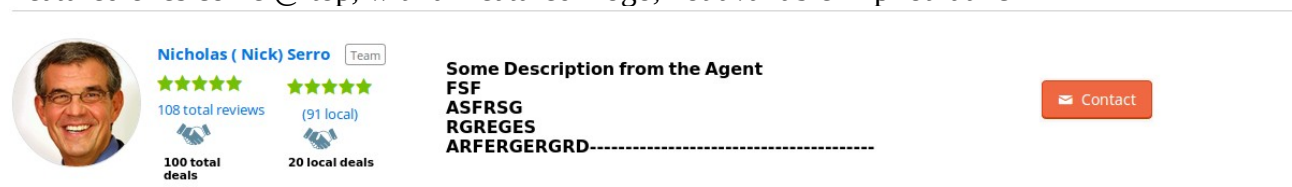

More links will come over time, but more or less will be same

Chapter :Search Results

1.Results

Featured ones come @ top, with a "featured" logo, not available in pilot launch

Review demarcated into total and local, "Team", "solo" tags

2.Contact

About

Reviews(34)

Description

It is not necessary to have played the previous Witcher games to fully enjoy Wild Hunt.

[11] While similar to the previous Witcher games, Wild Hunt has improved on several aspects from past games. Combat revolves around an action role-playing game system combined with the use of magic. The fighting system has been completely revamped.[11] Wild Hunt introduces some new mechanics, such as witcher-sense, combat on horseback and at sea, swimming underwater, and using a crossbow. Additionally, Geralt can now jump, climb, and vault over smaller obstacles. The climbing mechanics have been described as "not exactly" like Assassin's Creed, but more "similar to what we have in Uncharted".[12]

Item creation and potion brewing still remain as in previous games, but have been modified from The Witcher 2.
